

ipConfigure Announces SureView Systems Immix™ Integration for Central Stations

Today ipConfigure, a leading enterprise IP video surveillance developer, has announced integration of its Enterprise Surveillance Manager 5.1 to SureView Systems Immix™ video automation software for central stations.

Norfolk VA ([PRWEB](#)) April 28, 2010 -- Today ipConfigure, a leading enterprise IP video surveillance developer, has announced integration of its Enterprise Surveillance Manager 5.1 to SureView Systems Immix™ video automation software for central stations.

Enterprise Surveillance Manager (ESM) 5.1 is designed for large scale deployments of IP video for remote monitoring and surveillance. ESM was recently installed by Group 1 Automotive, a Fortune 500 company and one of the largest automotive dealerships in the US and UK with over 100 dealerships, 136 franchises and 25 collision centers.

“Having motion detection alarms sent from ipConfigure’s ESM to Immix allows operators to respond more efficiently to alarms and provides real-time video verification”, According to Jerrod Tuck of Cytex Systems - Group 1 Automotive’s systems integrator.

“We are very pleased to have ipConfigure join the ranks of video management software vendors that support Immix™ event framework”, stated Simon Morgan, Director of Third Party Integrations. “ESM is an especially good fit for customers like Group 1 Automotive who multiple locations and desire to unify all of them seamlessly through a single browser-based interface” said Steve Lewis, Vice President of ipConfigure.

About ipConfigure

Founded in 2003, ipConfigure is a privately owned video surveillance software company and a leading developer of enterprise IP video surveillance solutions. ipConfigure’s core products, Surveillance Manager Basic (SMB) and Enterprise Surveillance Manager (ESM) with License Plate Recognition are available as software only solutions or preinstalled on a Video Surveillance Appliance. All solutions are capable of supporting unlimited cameras, locations and users through a unified browser-based interface.

About SureView

SureView Systems is dedicated to improving the business performance of its clients, partners and resellers by providing exceptional products and services for the security marketplace. SureView partners with manufacturers, integrators and major monitoring stations to distribute the Immix™ platform and enable world-class security solutions. Since its launch in 2003, the Immix™ platform now protects more than 1000 customer locations across the United States and Europe.
